Lighthouse Keeper Program Notes

by Dave Bardsley

A **BIG THANK YOU** to all who have been Keepers of DeTour Reef Light. While a significant part of the lighthouse keeper fee covers the direct cost of the program (charter boat, insurance, utilities, etc.), over half of what we collect is used for maintenance – the most expensive part of keeping the lighthouse open for keepers and tours.

As of this writing, we still have a good number of keeper spaces available for the summer. Keepers are asked to be available on Drummond Island by noon on Friday of their weekend. The lighthouse experience continues until Sunday afternoon. Keepers are transported to and from DeTour Reef Light by Sturgeon Bay Charters (sturgeonbaycharters.com/). Up to six keepers per weekend can be accommodated. As of writing, thirty keepers have already signed up for this summer. The following keeper openings are available:

June 27-29	2 spaces
July 4-6	6 spaces
July 11-13	6 spaces

July 25-27	4 spaces
Aug 1-3	4 spaces
Aug 8-10	6 spaces
Aug 15-17	4 spaces

Debbie Hanson in the tower

*Jim and Kathy Forster,
Debbie and Mark Hanson
Photos by Mark Hanson*

A great deal of information about the keeper program is available at www.DRLPS.com (The Keepers application, Keepers Handbook, excerpts from logbook, etc.). However, the DRLPS two DVD video, “Gateway to Superior,” is the best way to learn about the keeper program. We have reduced the price of this video to \$8.00 (plus \$4.00 shipping and \$0.48 tax) – A great value. I would add that the video describes the formerly unpleasant work of power washing the lighthouse deck of seagull droppings. This task has been all but eliminated by the use of an electronic bird repeller (<http://www.bird-x.com/>). A repeat keeper who experienced the task of cleaning the deck from seagull droppings wrote this in the DeTour Reef Light Logbook:

“The Seagull repeller WORKS! Those who have never been before will never know the miracle of it. Those who have been here before – Rejoice! & never forget our fight against seagulls, The battle is won! The seagull repeller is a beautiful thing. In so many ways it has decreased work & increased the quality of the lighthouse stay.” (Angela Partlo – 4-time keeper).

This year DeTour Reef Light will undergo significant repairs to eliminate the damage caused by leaks and condensation. The roof will be completely covered with a heavy-duty roofing membrane to eliminate water intrusion. Additionally, the south opening window in the tower room will be made watertight and the deck at the watch room level will be sealed at the joints of the castings. Finally, the ceiling in the dining room, which suffered major damage from the leaks in the watch room window, will be replaced/re-plastered. All other damaged plaster will be repaired and re-painted. Because of the extent of these repairs, the lighthouse will not be available for tours and keepers from Sunday night until noon on Friday. Contractors will be required to clean up all construction debris, tools and material and store them in the basement of the light. Accordingly, until the construction work is completed (completion is scheduled by August 1st) keepers will not be able to reserve the lighthouse for extended stays or mid-week programs.

Wow! What a meal!

2014 DRLPS Collector's Postcard

Are You a Member?

You took one of the DRLPS Father's Day Cruises, or you made a donation to DRLPS, or you're a regular at the "Evening Under the Stars" fund-raiser event, or you remember becoming a member years ago – and you're receiving the newsletter regularly, so you must be a member. Right? Not necessarily. Once you indicate an interest in the DeTour Reef Light Preservation Society, we put you in our database, and we continue to keep you informed about the Light, the Society, and our activities through our newsletter. However, becoming a member brings you **into** the Society. It makes you part of the group of people who actually own the DeTour Reef Light. It also enables you to tour the Light or stay on it as a weekend keeper at a \$20 per person discount. From time to time, we have offered other special

"members only" benefits, and we are looking at providing more in the future with our new website.

So, how do you become a member? For now, we're still limited to the "old" technology of downloading a membership application and mailing it in with your payment. You can find the membership application form and instructions for mailing it to us at www.drlps.com/get-involved/become-a-member/. Annual memberships start at \$30 per family. Each year current members receive a free DeTour Reef Light collector's postcard. This year's card is an historical photo of the DeTour Reef Light and the US Coast Guard Cutter "Buckthorn," taken by Roger LeLievre in August 1975. I hope you will decide that this is the year you will become a member!

Paula Bardsley, Membership Chairperson
membership@drlps.com

Enjoy an *Evening Under the Stars* And Help Preserve a Lighthouse!

Every year since its founding in 1998, the DeTour Reef Light Preservation Society has sponsored a benefit dinner to raise funds to help with the preservation of the DeTour Reef Lighthouse. In 2000, the dinner was moved outdoors on the shore of picturesque Potagannissing Bay on the north side of Drummond Island adjacent to the Bayside Restaurant at the Drummond Island Resort and Conference Center when it became *Evening Under the Stars*.

The 15th annual *Evening Under the Stars* benefit event will be held on Friday, July 11, 2014 at the Bayside Restaurant waterfront beginning at 6:00pm. The full program includes cocktails, fabulous hors d'oeuvres, delicious dinner, talented live music and some unique auction items. The dress is dressy resort wear (business casual) and reservations are requested by June 30. The cost for this elegant, popular fundraiser is \$125 per person and a portion of the ticket cost is tax deductible as allowed by law. For reservations or additional information, please contact Sandy Wytiaz by email at star-sevent@drlps.com or by phone at 906-297-6801.

On the shore.....

Renown Lighthouse Preservationist Cullen Chambers Leaves a Legacy of Lighthouse Preservation

by Jeri Baron Feltner

Cullen Chambers and Jeri Baron Feltner on
the DeTour Reef Light Station in 1999
Photo by Chuck Feltner

Cullen Chambers, of the Tybee Historical Preservation Society in Georgia, Keeper of the Tybee Island Light Station, and renown lighthouse preservationist, passed away of an apparent heart attack on January 20.

I had the great pleasure of meeting Cullen, a man of tremendous integrity and talent, when he donated his services for an onsite DeTour Reef Light Station existing conditions report of the DRLPS in 1999. He prepared a significant document from this visit that became the foundation of our major restoration grant applications. His ongoing support over the years of the Society's efforts to preserve the lighthouse, and the friendship we developed, are deeply appreciated. Thank you Cullen for all your heart and soul work with saving the DeTour Reef Light where your memory will live on forever.

Comments on Facebook from Bob Trapani (Executive Director of The American Lighthouse Foundation) sums up Cullen's passion for preservation well:

Remembering lighthouse preservationist Cullen Chambers, who passed away on 1/20/14.

Cullen was as dedicated as he was talented – and was always there to help others in the lighthouse community whenever he was called upon. During his many ...years of service to preservation, he set the bar of excellence at lofty heights, all the while mentoring a number of people along the way and inspiring many other lighthouse preservationists throughout the country.

When we see the lighthouses that he touched at Key West, St. Augustine and Tybee Island and admire the gleam, dignity, vigilance steadfast endurance and friendliness that embody these sentinels – well, that pretty much sums up Cullen Chambers the person. May this “light” shine on in all of us.”

Cullen will be missed by every lighthouse preservation organization in America, but his work and inspiration will live on - especially at the DeTour Reef Light Station!

New Tour Coordinator

Donna Burden has stepped up to the challenge and will be scheduling tours of the DeTour Reef Light. Guided tours will be conducted on Saturdays from mid-June to Labor Day Weekend by various members of the DRLPS team. Donna can be contacted at Tours@DRLPS.com or by phone at 906-430-8169 to schedule a trip or a tour. Thank you Donna for your willingness to help out!

“Guys on Light” Close up DeTour Reef Light for Winter

by Dave Bardsley

Marked up work list

Early each June “Ladies of the Light” spend two days cleaning De-Tour Reef Light in preparation for the tour and keeper season. The male counterpart is that every fall a group of men spends two days and one night on DeTour Reef Light performing maintenance and preparing the light for the long cold winter. Last October 5th and 6th Gerald Ellis, Dick Bennett, Joe Henne, Hugh Covert, and Dave Bardsley made up the team. Charter boat captain Meade Gable also assisted but did not spend the night. The list of maintenance and winterizing items was long, but most of it was accomplished in spite of challenging weather conditions. Work proceeded smoothly with maintenance on both cranes, repair of windows, repair of the front door latch, removal of items to Drummond Island for the winter, etc. etc. Because of the large seas, it was not possible to remove the eight mooring lines from the rings on each

Gerald Ellis on top of crane with grease gun

face of the light from the water. Dave volunteered to go over the side in a safety harness held by other team members. Unfortunately, he had not been keeping to the diet his wife Paula recommended and he was too heavy for the team to support. The result was an October swim (fully dressed) for Dave and a very bad rope burn for Gerald. Dave’s sprits were not dampened, but he was quite chilled. Gerald shrugged off the injury with a little doctoring by veterinarian Dick. Saturday evening all enjoyed a lasagna dinner accompanied by their choice of wine or beer and storytelling.

Hugh Covert, Joe Henne, Gerald Ellis, and Dick Bennett (Dave Bardsley taking photo)

Sunday’s weather brought six to eight foot seas and the team hurried to finish draining all the water from the plumbing systems and packing all paper and fabric items for storage on Drummond. Meade arrived on schedule to remove us from the light but the seas made it impossible to secure to the light. After the first mooring line exploded, all quickly scurried down the face of the light and jumped on Luk Dragon leaving most items on the deck of the lighthouse to be hopefully retrieved later. Fortunately, no one was injured and Luk Dragon escaped major damage. Late Sunday night after the winds calmed down, Dave and Meade returned to DeTour Reef Light, turned off lights left on, and loaded the items that were abandoned on the lighthouse deck during the hasty departure earlier in the day.

Dr. Richard Bennett administers first aid to Gerald Ellis

All was closed up for the long, hard winter and ready for the “Ladies of the Light” to reopen in June once again.

INVITATION TO BID

The DeTour Reef Light Preservation Society (DRLPS), Drummond Island (Chippewa County), Michigan invites bids for interior and exterior rehabilitation work at the DeTour Reef Light Station. This light station is an off-shore structure located at the mouth of the St. Mary's River in northern Lake Huron between Drummond Island and DeTour Village, Chippewa County, Michigan. This project is titled **"DeTour Reef Light Station – Water Ingress Repair and Remediation Project"**.

The work includes the following: a) re-roofing of the main roof above the second floor level with a new single-ply roof membrane including related flashing and trim work; b) inspect and repair copper gutters and downspouts; c) install exterior sealant material in metal plate wall joints and cast iron metal floor joints at the watchdeck; d) install new ventilation grilles in walls and ceilings for attic space venting; e) removal and repair of damaged interior plaster wall and ceiling surfaces; f) interior painting; and g) repair of one metal window.

The DeTour Reef Light Station is an historic structure; all work shall comply with the Secretary of the Interior's "Standards for the Treatment of Historic Properties". Prime bidders must have a minimum of five years verifiable experience in rehabilitation work on historic buildings and structures.

Firm fixed price sealed bids will be received from General Contractors on behalf of the DeTour Reef Light Preservation Society at the office of **Sanders & Czapski Associates, PLLC**, 109 S. Front St., Suite #210, Marquette, Michigan 49855 no later than **2:00 p.m. (ET) on Tuesday, May 13, 2014**. Firm fixed price bids shall be submitted in a plain envelope marked "DETOUR REEF LIGHT STATION – WATER INGRESS REPAIR AND REMEDIATION PROJECT". Bidders must submit a signed copy of both the **"Certification Regarding Debarment"** form and the **"Certificate Verifying Key Persons of the Contractor / Subgrantee"** form with their Bid. Bids will be opened publicly on the due date, read aloud and recorded. A 100% Performance Bond and Payment Bond will be required and shall be executed on AIA Document #A312 Performance Bond and Payment Bond. A 5% Bid Bond is required. Faxed copies of bid proposal are acceptable and may be faxed to 906-273-1208. E-mail copies of the bid proposal are also acceptable and may be e-mailed to ken@sanders-czapski.com.

As part of the Bid submittal, bidders **must** submit **roofing details** that are specific to their roof system being bid. Specific details shall include, but not be limited to, roof membrane termination at vertical walls and parapets, roof membrane termination at built-in gutters, and flashing details at guardrail posts. Because the roof details are critical to maintaining the historic material and character of the new structure, these details will be evaluated along with the bidder's cost proposals. It is the intent that new roofing details conform to the historic character of the structure as closely as possible.

Contract documents will be available on March 28, 2014 and may be secured at the office of Sanders & Czapski Associates, PLLC, 109 S. Front St., Suite 210, Marquette, Michigan. Phone: 906-273-1207. A \$30.00 non-refundable handling fee will be charged. Make checks payable to Sanders & Czapski Associates, PLLC. Documents are also available for viewing at the following Builder's Exchanges: Marquette, Delta County, Dickinson County, Traverse City and Grand Rapids.

A **MANDATORY** pre-bid conference and site visit is scheduled for **10:00 am (ET) on TUESDAY, April 29, 2014**. A **back-up, weather date** is scheduled for **Thursday, May 1, 2014**. All general contractors and roofing contractors / roofing suppliers are **required** to attend. Other sub-contractors are encouraged to attend. Everyone shall initially meet at the Fort Drummond Marina on Drummond Island at the above noted time. Boat transportation will be provided by the DeTour Reef Light Preservation Society for all attendees to travel from the harbor to the light station for the site inspection and meeting. All attendees will then be transported

Continued on page 7

Continued from page 6

back to Fort Drummond Marina. Please allow time for the ferry boat travel to Drummond Island. The Drummond Island Ferry is operated by the Eastern Upper Peninsula Transportation Authority. Schedules are available on www.eupta.net.

It is the intent to award a construction contract in mid June 2014 with construction beginning immediately thereafter. All construction work shall be completed no later than August 1, 2014.

The DeTour Reef Light Preservation Society reserves the right to reject any and all bids and is not obligated to accept the lowest bid and may waive any informality and irregularity in the bidding procedure.

This project is funded in part by the Michigan Lighthouse Assistance Program (Project #LH13-187) and grant administration of the State Historic Preservation Office, Michigan State Housing Development Authority. Compliance with all applicable federal, state and local laws, rules and regulations is required.

NOTE: This invitation was issued March 21, 2014 and amended on April 22, 2014 to reflect a pre-bid conference and site visit change to Tuesday, May 13, 2014 due to ice conditions in the area. The bid package is now due on May 29, 2014. (See related article on page 9.)

Passages Delivered To Your Email

As we begin another exciting summer at the DeTour Reef Light, we want to take this opportunity to share some important changes regarding how you receive the DeTour Reef Light Preservation Society's newsletter, Passages.

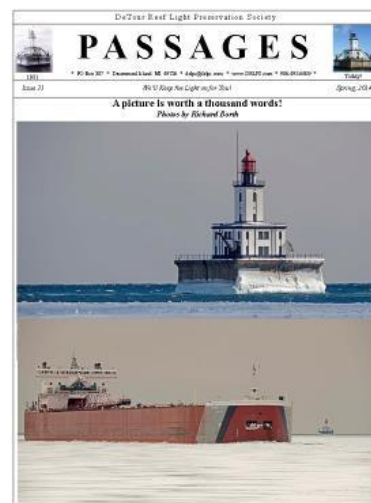

Looking at the best ways to make the newsletter available, we have considered how information is being received and the growing costs of mailing a printed newsletter. We believe sharing the newsletter digitally is the responsible thing to do AND that news about the Light and DRLPS will be timelier. You will be able to view the newsletter with color pictures and, if you choose, you can print out all or part of the information contained there. All the past issues of Passages are also on the web site (www.DRLPS.com), and can be printed out with no password required.

If you would like to have other family and friends included on our e-mail list, send their name and e-address to Newsletter@drmps.com

Those of you that have shared your e-mail address with us will be receiving this issue digitally. If you have received a printed copy and would like to continue receiving Passages, please send an email to Newsletter@drmps.com and you will be added to the e-list. Also, be sure to add Newsletter@drmps.com to your email's address book.

As always, we appreciate your support and hope you will see these changes as positive steps forward. Feel free to email me with your comments and ideas at the e-mail address below.

Ann Method Green

17th Annual Father's Day St. Mary's River Cruise June 15, 2014

The DeTour Reef Light Preservation Society is proud to present the 17th annual Father's Day River Cruise on the St. Mary's River. During the tour you'll get to see the DeTour Reef Lighthouse up close and end the tour locking through the historic Soo Locks.

The cost of the trip is \$105 per person. Your trip will include a fully narrated tour, doughnuts and breakfast snacks, lunch, and door prizes. Soo Locks Boat Tours will be providing a cash bar. A portion of your ticket price is tax deductible, and all profits will be used for restoration and preservation efforts of the DeTour Reef Lighthouse.

Boarding begins at 9:45am at the DeTour Ferry Dock with departure at 10:00am. The boat tour concludes at Soo Locks Boat Tours Dock #2 at approximately 4:30pm.

Treat your Dad with a trip on the historic St. Mary's River, the Soo Locks and the DeTour Reef Lighthouse! For questions and more details, please phone 906-297-6051 or email RiverCruise@drlps.com. The Father's Day Cruise is sponsored by DeTour Reef Light Preservation Society

Leave from Sault Ste. Marie

Leave BEFORE the cruise from the Soo Locks Boat Tours Dock #2 in Sault Ste. Marie at 8:15 am to DeTour Village on a DRLPS provided bus

OR

Leave from DeTour Village

Return AFTER the cruise from Soo Locks Boat Tours Dock #2 to DeTour Village at approximately 6:00 pm on a DRLPS provided bus

HISTORIC DOCUMENT REPRINTS

First reprinted in Passages 6, Spring 2005

Instructions to the Keepers of Light Houses

Within the United States, 1835

1. You are to light the lamps every evening at sun-setting, and keep them continually burning, bright and clear, till sun-rising.
2. You are to be careful that the lamps, reflectors, and lanterns, are constantly kept clean, and in order; and particularly to be careful that no lamps, wood, or candles, be left burning anywhere as to endanger fire.
3. In order to maintain the greatest degree of light during the night, the wicks are to be trimmed every four hours, taking care that they are exactly even on the top.
4. You are to keep an exact amount of the quantity of oil received from time to time; the number of gallons, quarts, gills, &c., consumed each night; and deliver a copy of the same to the Superintendent every three months, ending 31 March, 30 June, 30 September, and 31 December, in each year; with an account of the quantity on hand at the time.
5. You are not to sell, or permit to be sold, any spirituous liquors on the premises of the United States; but will treat with civility and attention, such strangers as may visit the Lighthouse under your charge, and may conduct themselves in an orderly manner.
6. You will receive no tube-glasses, wicks, or any other article which the contractors, Messrs. Morgan & Co., at New Bedford, are bound to supply, which shall not be of suitable kind; and if the oil they supply, should, on trial, prove bad, you will immediately acquaint the Superintendent therewith, in order that he may exact from them a compliance with this contract.

Continued on page 9

Continued from page 8

7. Should the contractors omit to supply the quantity of oil, wicks, tube-glasses, or other articles necessary to keep the lights in continual operation, you will give the Superintendent timely notice thereof, that he may inform the contractors and direct them to forward the requisite supplies.
8. You will not absent yourself from the Light-house at any time, without first obtaining the consent of the Superintendent, unless the occasion be so sudden and urgent as not to admit of an application to that officer; in which case, by leaving a suitable substitute, you may be absent for twenty-four hours.
9. All your communications intended for this office must be transmitted through the Superintendent, through whom the proper answer will be returned.

Fifth Auditor and Acting Commissioner of the Revenue
UNITED STATES TREASURY DEPARTMENT *Fifth Auditor's Office*
April 23d, 1835

Status of the Michigan Lighthouse Alliance Program Grant for DeTour Reef Light's Roof

by Ann Method Green

In May 2013 the DRLPS received notification from the Michigan State Housing Development Authority / State Historic Preservation Office that the \$90,000 grant application written by Jeri Baron Feltner and Chuck Feltner for “Water Ingress and Repair Remediation at the DeTour Reef Light” was in consideration for the 2013-2014 grant year.

They required additional information including budget, performance schedule, and plans and specifications. Ken Czapski, a Restoration Architect, from Sanders & Czapski in Marquette was hired to help the Society work through the requirements of the MLAP grant process. DRLPS has worked with Ken on the original restoration in 2003-2004, and he brings a wealth of knowledge to this effort.

The formal grant agreement was signed on February 21 and now the work of repairing the roof begins. The first step has been completed. The bid solicitation letter and invitation to bid was published the week of March 31. The next step, a mandatory pre-bid site visit on the Light has been re-scheduled for May 13 because of the heavy ice conditions in the area. The due date for the bids is May 29. (See the Bid Solicitation on page 6-7.)

The contract now requires a late-June start up with completion by August 29. Another requirement for the winning bidder is that they will be required to clean up all construction debris, tools and material and store them in the basement so that the Light can be available for the Weekend Keepers Program and Tours. The Keeper Program Chairs, Dave Bardsley and Mike Horton, and Preservation and Maintenance Chair, Brian Nettleton, will do everything they can to ensure a great experience this summer on the Light.

We're looking forward to the completion of the repairs and plan on "business as usual" for our visitors this summer. At the completion the Light will be more spectacular than ever!

Last fall Preservation Chair, Brian Nettleton, and his work crew, Dave Bardsley, Tim Loehr and his son Tyler Soule, applied a temporary coating to the roof to prevent further deterioration and leaks. Brian was looking for a little help and they just happened to be out working in their yard when he drove by. Brian shares, "I stopped and said, 'Hey you want to go for a boat ride? I need to run out to the lighthouse.' I left out that I needed to roll a coat of sealer on the roof part until we were away from the dock. They had a great time though and would volunteer anytime."

*Tyler Soule and Tim
Loehr on the roof*

Support comes from so many people in so many ways. Thank you Tim and Tyler for your help.

One Time Opportunity

The DRLPS thought about selling this pictured jewelry as a fund raiser. However, the decision was made to not carry these items at this time. They were designed by local Drummond Island jewelry artist, Bonnie Sokoloski. There are two pair of earrings available for sale at \$32 per pair (includes shipping and handling). They are set in silver and are Swarovski Crystal on the crib base, upper tower, and lantern level and Howlite Stone (textured white) on the mid-level.

The earrings and matching necklace set are \$52 (includes shipping and handling). They are set in gold and are 100% Swarovski Crystal.

This is another wonderful opportunity for you or a special someone for a gift – hint - hint. If you are interested in either, please contact Ann Method Green at (PR@drlps.com). These will sell on a first come, first served basis.

DeTour Reef Lighthouse Preservation Society

DRLPS is a volunteer nonprofit 501(c)(3) organization established in 1998 to restore and preserve the DeTour Reef Light. Donations are welcomed and are tax-deductible (EIN 38-3387252, MICS 27001).

The Light was automated in 1974. In 1997, the lighthouse was declared surplus property by the U. S. Coast Guard due to sophisticated navigational systems aboard ships, and the Coast Guard's not having the funding to care for the structure in accordance with historic preservation guidelines. In January 1998, local citizens joined together to save the Light.

The lighthouse was built in 1931, and proudly stands guard a mile offshore in northern Lake Huron at the far eastern end of Michigan's Upper Peninsula. The structure rises 83 feet above the water and marks a dangerous reef to help guide ship traffic from and to Lake Huron and Lake Superior via the strategic St. Mary's River.

The DRLPS received the 2005 Governor's Award for excellence in historic preservation, and the Superior Award in 2006 from the Historical Society of Michigan. The DeTour Reef Light is listed on the National Register of Historic Places. In 2010 the DRLPS was designated a Preserve America Steward by First Lady Michelle Obama.

PURPOSE: the purpose of DeTour Reef Light Preservation Society is to establish, support and promote efforts in the preservation and restoration of the DeTour Reef Light; to achieve the safe keeping of the building, artifacts and records; to educate and inform the public on lighthouse history; to enhance public awareness of the value this lighthouse and its keepers brought to our nation's development; to make the DeTour Reef Light a premier tourist attraction in Michigan's Upper Peninsula as the best example of a faithfully restored offshore lighthouse in the Nation; to provide the public safe access to the lighthouse; to raise awareness about the importance of volunteers in maintaining and preserving the DeTour Reef Light and the DRLPS for generations to come.
